

# Rinnai.

To Our Valued Associates and Business Partners:

I am excited to announce that Rinnai America Corporation has formed a partnership with Folds of Honor, a nonprofit organization founded by Major Dan Rooney, a fighter pilot with the Air Force Reserves, that will fund trade school scholarships for the families and children of fallen or disabled military service members.

For every Rinnai Tankless Water Heater or Boiler sold in 2019, Rinnai will make a contribution to Folds of Honor to fund trade school scholarships. Rinnai has guaranteed a commitment to fund 50 scholarships for a total of \$250,000 to support our military families, while at the same time helping to address the skilled labor shortage that our industry faces.

We are also providing our business partners and our associates with the opportunity to support the American heroes who have defended our country, as well as the industry that is so important to our lives. An online donation site is available for you to participate in the campaign and can be accessed by clicking "Join Us Now" below. Rinnai associates have also been provided with the opportunity to contribute via payroll deduction. If you are interested, you can choose the amount you would like to contribute – any contribution is appreciated and no contribution is too small.

I encourage you to learn more about the Folds of Honor Scholarship program by visiting [their website](#). Some example stories of Folds of Honor scholarship recipients can be found on the [Rinnai Folds of Honor](#) web page. Thank you for supporting our military families and our industry.

Sincerely,

Frank Windsor  
President, Rinnai America Corporation
