

# NEWPORT BRASS®

Flawless Beauty. From Faucet to Finish.™

## Symmetry and Balance in Kitchen Design

The Adams kitchen series is designed for state-of-the-art kitchens where aesthetics are as important as functional performance. Sure to attract attention, Adams embraces symmetry by pairing a uniquely designed square base with a flat geometric lever handle to bring harmony and stability to the kitchen. The new fixture includes Newport Brass' signature magnetic docking system that secures the pull-down spray head to the spout when not in use and also features a two-function toggle control spray engine with a pivot ball fitting that enhances directional control within the sink.

Adams is constructed out of solid brass to deliver long-lasting beauty and superior performance. The collection includes matching water delivery and accessory products and is offered in 27 different decorative finishes to provide the utmost in choice, selection, and customization options.

Adams is one of six new Newport Brass kitchen collections that offer a variety of stylish options for designers, specifiers and homeowners. Each collection has a distinctive aesthetic and is available with matching water dispensers, pot fillers, soap/lotion dispensers, and air gaps.
