

Delta® Commercial DEFM-100 Flush Valve Shipping Delay

Date Posted: 2019-09-16

Due to an unexpected supplier constraint, shipments of the DEFM-100 Electronic Side Mount Flush Kit have been put on hold. The DEFM-100 is used to convert manual 81T Teck® flush valves and 86T metering urinal valves to electronic operation.

We are targeting to have existing backorders cleared by mid-January 2020. Further communication will be published once shipments resume.

We apologize for any inconvenience this may cause.
