

D'MAND Kontrols® Systems
Advanced Conservation Technology Distribution, Inc.

October 15, 2019

To Our Valued Colleagues,

ACT, Inc. D'MAND Kontrols® Systems is completing the final phase out of our older WRT-KIT-434 and WT-434 models. They have now been replaced with our newest Bluetooth technology, (models WRT-KIT-BT and WT-BT), throughout the distribution channel. Due to our limited inventory, we can only offer the WRT-KIT-434 and WT-434 until our final stock is depleted. The Bluetooth specification sheets are available by visiting our website at www.gothotwater.com, or by calling us at (800) 200-1956.

If you have any questions, please feel free to call or email our office. We thank you very much for your continued partnership in our conservation efforts.

Regards,

Michael C. Burch
Vice President Sales and Marketing
