NEWPORT BRASS

Flawless Beauty. From Faucet to Finish.™

Infusing modern flair to the industrialized wheels of yesteryear, Slater and Tyler promise to be two of Newport Brass' most startling bath and accessory collections to date. Perfectly uniting the iconic design of a traditional gate valve with today's artistic contemporary style, both collections deliver a unique aesthetic that is sure to be popular with architectural and design communities.

Sign Up at <https://www.rinnai-lms.com/>

Are YOU Missing an Important Step in Crafting a Good Brew?

While choosing the right ingredients for your brew, fermentation, bottling and storage are all essential steps in crafting a good brew, the design of a drainage system in your facility plays an essential part in the process. Having a quality and functional drainage system with the right materials is one of the keys to brewing a good beer because it lets you focus on what you do best, Brew Beer!

[Please see attached flyer for more information](#)
